

Certificate Terms – Dividends are compounded quarterly. If you close a Certificate before dividends are credited, you will receive accrued dividends. Dividends are calculated by the daily balance method, which applies a daily periodic rate to the principal in your account each day. Dividends will begin to accrue on the business day you deposit to your account. Dividends are paid from current income and available earnings, after required transfers to reserves at the end of a dividend period. The Dividend Rate and Annual Percentage Yield are variable and are determined by the Board of Directors with the rate being in effect for the term of the Certificate. Early withdrawal penalties may be imposed if you withdraw any of the funds before maturity date. The penalty will equal 30 days of dividends on Certificates with an original term of 6 months, 90 days of dividends on Certificates with an original term of 12 or 18 months, 180 days of dividends on Certificates with an original term of 24 months, and 270 days of dividends on Certificates with an original term of 36 months. If there are not sufficient dividends to cover the penalty, the penalty will be deducted from the principal. **Renewal Policies & Grace Period:** Certificates will automatically renew at maturity and will not have a grace period.

Account Terms (Business Share, Money Manager, and Checking) – The dividend period is monthly. Dividends will be compounded monthly and will

be credited monthly. For example, the beginning date of the first dividend period of the calendar year is Jan. 1 and ending date of such dividend period is Jan. 31.

Money Manager: If you exceed three withdrawals within a calendar month, your account will be assessed a \$3.00 fee per withdrawal. **Transaction Sub Accounts:** These accounts consist of a transaction sub account and a savings sub account. Funds not routinely needed to pay debits may be transferred to a savings sub account. We may periodically transfer funds between these two sub accounts. Your interest calculation will remain the same. The savings sub account will be non interest bearing. The savings sub account will be governed by the rules governing our other savings accounts indicated within the Withdrawals Section of your Account Agreement. This process will not affect your available balance, the interest you may earn, NCUA insurance protection, your monthly statement, or any other features of these accounts.

Dormant Membership – Any membership which has not had any activity by, or contact from, an account holder for 12 months. Payment of dividends or charging a fee by the credit union is not considered to be activity by an account holder. Memberships which have an active loan, Certificate, or Individual Retirement Account shall not be considered dormant.

Business Services Fee Schedule
