

A little luck is fun — but a smart plan is better. This March, **Arizona Central Credit Union** is helping families teach kids how to build a simple budget that keeps their money from disappearing like magic. With a hands-on, pot-of-gold activity, kids learn how to plan, prioritize, save, and give — all while having fun.

3 WAYS TO TEACH KIDS SMART BUDGETING HABITS

- 1. Give Every Dollar a Job.** Help kids understand that money works best when it has a plan. Budgets help decide what to spend, save, and share — before the money is gone.
- 2. Talk About Needs vs. Wants.** Ask: “Which things do we need every month, and which are just for fun?” This simple conversation builds awareness without pressure.
- 3. Make Saving and Giving Part of the Plan.** Budgets aren’t just about spending. Including savings and giving helps kids see money as a tool for goals and generosity.
