

SPRING SHOP Challenge

Spring Shop

Instructions

Welcome to the Spring Shop! You have **\$20 to spend** — but you can't go over your budget.

Your Challenge:

Choose items from the shop to create your perfect spring haul.

The Rules:

- You can buy **as many items as you want**
- You must stay at or **under \$20**
- You can spend all your money or save some — your choice!

What to Do:

- Look through the Spring Shop list
- Pick the items you want
- Add up your total as you go
- Write down what you bought and your total cost

Goal:

Build the best combination of items **without going over \$20**

Spurge Items (\$12–\$15)

T-shirt \$14	Art Supply Set \$15	Board Game \$15	Bluetooth Mini Speaker \$12
-----------------	------------------------	--------------------	--------------------------------

Bigger Choices (\$8–\$12)

Craft Kit \$9	Puzzle \$10	Baseball Cap \$11	Reusable Water Bottle \$12
------------------	----------------	----------------------	-------------------------------

Outdoor Fun (\$5–\$9)

Jump Rope \$6	Frisbee \$7	Water Balloon Pack \$5	Mini Soccer Ball \$8	Beach Ball \$6	Gardening Gloves \$7
------------------	----------------	---------------------------	-------------------------	-------------------	-------------------------

Fun Spring Items (\$3–\$6)

Sidewalk Chalk Set \$4	Mini Bubble Wand \$3	Sunglasses \$5	Flower Sticker Sheet \$3	Spring Pencil Pack \$4	Kite \$5	Small Stuffed Bunny \$6	Coloring Book \$4
---------------------------	-------------------------	-------------------	-----------------------------	---------------------------	-------------	----------------------------	----------------------

Small Treats (\$1–\$3)

Jelly Beans \$1	Chocolate Bunny \$2	Lollipop \$1	Gummy Worms \$2	Mini Cookies \$2	Lemonade Cup \$2	Fruit Snack Pack \$1	Popcorn Bag \$1
--------------------	------------------------	-----------------	--------------------	---------------------	---------------------	-------------------------	--------------------

Money Left to Save: _____ **Grand Total:** = _____

BUILD YOUR NEST EGG

A Golden Egg Easter Activity

The Story

One sunny Easter morning, the Easter Bunny was delivering baskets and eggs to good boys and girls. As he hopped through the woods, he noticed a shiny golden egg nestled in the grass. He stopped and picked it up. Inside he saw \$100 and a note.

"Treasure grows for those who are patient." Curious, the Easter Bunny placed the \$100 into a cozy nest and waited.

Year after year, something amazing happened...

The money inside the golden egg grew a little bigger.

Then the next year... it grew even more. And the next year... even more than that!

It seemed like the golden egg had a special kind of magic.

But guess what?

You don't actually need a magic egg for money to grow.

When money is saved, invested and given time, it can grow little by little each year — and then grow even more the next year because the amount is bigger.

This is called **compound interest** — and it's how people build BIG nest eggs over time.

Now let's see how much your \$100 can grow in 10 years...

Part 1: Fill Your Eggs

Each egg shows how much INTEREST your nest egg adds that year. Use the Growth Guide to find the interest, add it to last year's amount, and write the new total in each egg.

Growth Guide

Year 1 → **+\$10**

Year 2 → **+\$11**

Year 3 → **+\$12**

Year 4 → **+\$13**

Year 5 → **+\$15**

Year 6 → **+\$16**

Year 7 → **+\$18**

Year 8 → **+\$19**

Year 9 → **+\$21**

Year 10 → **+\$24**

\$159

Is it worth waiting to turn \$100 into something so much bigger?

Remember: Small choices today can grow into something BIG tomorrow.
